### **REASONS FOR ALLOWANCE**

1. The following is an examiner's statement of reasons for allowance:

The Examiner agrees with Applicant's remarks, specifically:

"KUMAR et al. discloses a lubrication system for applying lubricant to curved and tangent railroad tracks. The "scoop 16", identified by the Examiner in the Office Action dated March 15, 2006, is in fact a nozzle wherein by incorporating the lubrication system of KUMAR et al. "accurate quantities of the lubricants can be applied to the rail so that when the last car of the train has passed a certain location, no TOR lubricant is left on the rail head" (Column 6 lines 37-42). Therefore, the "scoop 16" does not act as a scavenge system which collects unused lubricant and hence, KUMAR et al. does not anticipate the present invention as claimed. Furthermore, KUMAR et al. does not teach or even mention removing surplus lubricant and returning it to a reservoir."

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### **EXAMINER'S AMENDMENT**

2. The following changes to the drawings have been approved by the examiner:

Figures 1 and 4 need a "Prior Art" label. In order to avoid abandonment of the application, applicant must make these above agreed upon drawing changes.
